

“Is it Shorter Than a Dollar or Smaller than a Quarter?”

Let **SHOWCASE** AutoGlass Help You to Determine if Your Windshield Cracks need Repair or Replacement.

SHOWCASE AutoGlass provides quality auto glass repair and installation services at an affordable price. We can provide fast and reliable service, and provide “on-site” repairs and replacement glass.

Replace or Repair: Fast and Affordable

Usually, cracks that are small, clean and relatively new can be repaired without replacing the entire windshield and molding. Advantages to repairing include:

- Lower cost, depending on parts and labor
- Restore the windshield’s structural integrity
- Insurance may cover with no deductible

Repair or replacement can both be completed quickly and conveniently at the customer’s location.

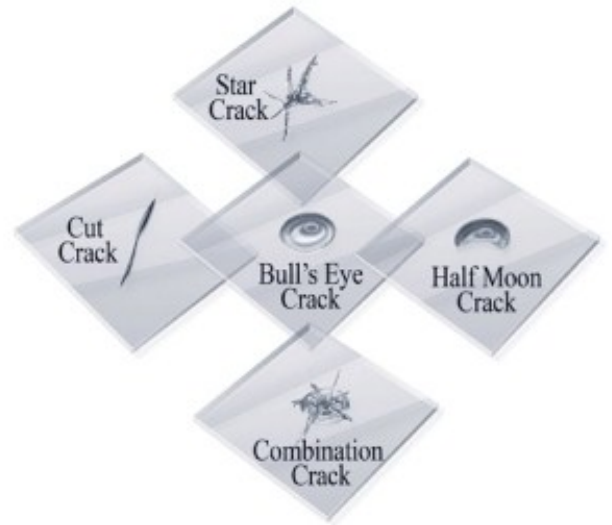

Which do You Need: Repair or Replacement?

If the chip is smaller than the diameter of a quarter, or the crack is shorter than a dollar bill, it is possible you can repair the windshield without total replacement

You must replace the windshield if:

- A crack is longer than six inches and/or growing
- The break is stress-related, and may grow over time
- The crack contains dirt or other contaminants that can’t be removed
- The break penetrates the interior layer of laminated glass
- More than one crack intersect more than one edge of the windshield
- Damage occurs near features such as rain sensors
- The break is longer than a dollar, or larger than a quarter

A windshield is an important part of your vehicle’s safety features. It is part of the restraint system that keeps you and your passengers safe. When you have a crack, repair or replacing your windshield quickly is a crucial part of the vehicle’s maintenance. Call us to learn more about your auto glass!
